## WORK EXPERIENCE

### Devathon, Crypsis Technologies

Hyderabad, Telangana

Software development intern

Jun 2022 - Jun 2023

- Successfully worked on projects such as TalentMetric, Pilcrow Solutions (UHC Healthcare), and Autochat.io (Shopify), utilizing Ruby on Rails and the MERN stack.
- By optimizing these applications, I significantly increased the customer count.
- Leveraging my expertise, I enhanced performance, scalability, and user experience, resulting in improved customer satisfaction and business growth.
- Worked on version control systems such as Git, GitHub, and GitLab. These powerful tools helped in effective collaboration, efficient code management, and seamless project tracking.

### KIIT DEPARTMENT OF TRAINING AND PLACEMENT

New Delhi

Intern

Jan 2022 - Apr 2022

- During my internship, I gained hands-on experience working with JavaScript, ReactJS, CSS, and HTML.
- I developed a solid foundation in web development, mastering the fundamentals of front-end technologies.
- This experience enabled me to create interactive and visually appealing user interfaces, while also enhancing my problem-solving and collaborative skills in a professional environment.

## EDUCATION

### Kalinga Institute of Industrial Technology (KIIT)

Bhubaneswar, Odisha

Btech (Information Technology)

Graduation Date: Jun 2023

### D.A.V Public School

New Delhi

High School

Graduation Date: Apr 2018

## PROJECT EXPERIENCE

### Chat App

Hyderabad

MERN STACK

May 2023 - Jun 2023

- The MERN stack chat app is a real-time messaging platform that enables seamless communication between users.
- It utilizes MERN stack for the frontend, and server-side functionality.
- With user authentication and real-time updates, the app offers a secure and interactive chat experience.

### Movie app

Hyderabad

Reactjs | CSS | HTML | FIREBASE

Nov 2022 - Dec 2022

- A movie review site which displays Trending, Award winning and other category movies and provides features like favorites tab for users.

### Word Dictionary API

Hyderabad

Ruby on Rails | CSS | HTML

Jun 2022 - Jun 2022

- This app provides the features like SignUp and Login for users.
- After which users can create the time dependent api keys to search for text, and other details of the word.
